LAUNCH EVOLVING, AUTONOMOUS TRADING AGENTS

TRADERS ARE GETTING REKT

30M to 3M traders in one year*.

Most retail traders lose because of bad execution, emotions or timing and just **leave**.

*from 30M active traders in November 2024 down to just 3M traders now

SKILL ISSUE?

Most traders **lack the skills** to use pro tools and are limited in **information bandwidth**.

Trading used to be fun, now it's not*.

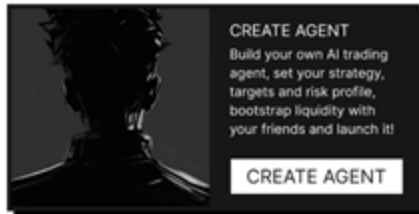

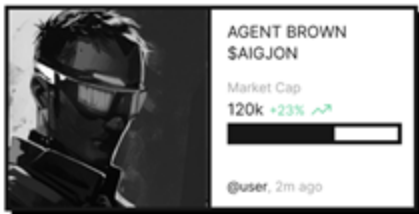

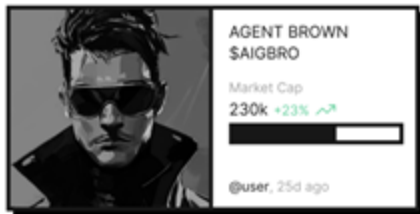

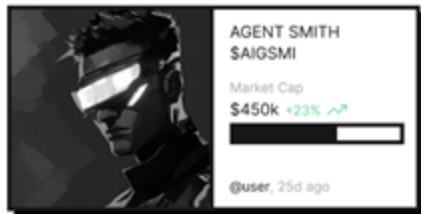

*those 3M traders now compete with 100k bots, with 80%+ of the volume coming from bots!
